ABOUT ME

Experienced developer with 1 year plus of working experience, proficient in managing end-to-end software solutions for clients, from planning to deployment. Ability to work in fast-paced environments with tight deadlines, often juggling multiple projects even with smaller team.

EXPERIENCE

Mirfalah Sdn Bhd, Wangsa Maju, KL • Software Developer (Remote)

Jan 2023- Present

- Develop an e-commerce product with hundreds of active users making purchases, ultimately generating over \$500k in revenue.
- Establish a one-stop investment platform for the state government, facilitating seamless handling over hundreds of investor proposals range around \$50k to \$1M.
- Build comprehensive Human Resource system encompassing staff attendance, leave management, and organizational assets.
- Engineer a queue management system deployable on kiosks, accessible via mobile devices, and equipped with WhatsApp notification support.
- Create a comprehensive real estate platform specializing in property listings, lands and various types of buildings. Implement payment reminder to notify the ownership with tax and overdue.

Kementerian Sains Teknologi dan Inovasi, Kota Kinabalu, Sabah • IT Support Intern

Jan 2020 –

June 2020

- Deliver Level 1 support services to employees.
- Managing and providing assistance with hardware, software, network, and banner-related design.
- Invited to take part in events like the Sabah Digital Event.
- Design and implement a remote attendance system tailored for staff working remotely.

Freelance Software Developer

Jan 2022- Present

- Leveraging spare time to enhance skills while engaging in client projects.
- Developing websites and Android mobile applications using React Native.
- Offering pro bono consultation for solution architecture design.
